

TRAINEE NEWS

Canadian Injury Prevention Trainee Network Newsletter

Issue 2: September 2016

Welcome Back Trainees!

We hope that everyone had an enjoyable summer and is feeling refreshed for the start of the new school year.

Last year, the CIPTN enjoyed a great deal of success and growth. Since our meeting in Halifax (February 2016), 22 new trainees have registered as members.

Several opportunities to work on paid projects have been advertised to members and the CIPTN has successfully achieved funding from a number of sources. A summary of the group's recent events and successes is listed on page two of this newsletter.

We are looking forward to the new school year and to expanding our network to include new injury prevention trainees.

CIPTN Members at the Halifax meeting, February 2016

In This Issue

- Recent CIPTN events and successes
- Upcoming events
- KT competition results
- Information for new members
- Current opportunities

Summary of Recent CIPTN Successes:

SUCCESSFUL GRANTS:

2016 Pike I, Babul S, Taunton J, Emery C, Amed S, Gershman T, Richmond SA
Active & Safe BC: Injury Prevention for Sport and Physical Activity.
Amount: \$500,000

2016 Richmond SA, Macpherson A.
The Canadian Injury Prevention Curriculum Revisions. Public Health Agency of Canada. Injury and Healthy Living Section, Surveillance and Epidemiology Division.
Amount: \$9,920

2015 Richmond SA, Black A, Ezzat A, Fridman L, Macpherson A, Pike I.
Supporting collaborative activities through the Canadian Injury Prevention Trainee Network (CIPTN) to promote injury prevention education.
Amount: \$9,500

SUCCESSFUL/FUNDED PROJECTS:

2015 CIPC Revisions - Lesson 1 through 4
2016 Developed 8 online learning modules
2016 Developed a website for the CIPTN: www.ciptn.org
2016 Hosted KT Competition
2016 Parachute Priority Setting Framework

PROFESSIONAL DEVELOPMENT OPPORTUNITIES:

February 2016: Halifax STAIR C&Y Team meeting, Mentorship Breakfast
June 2016: Virtual presentation & discussion (conference call), Career Next Steps

Upcoming Events/Projects

PROJECTS:

September 2016: Active & Safe BC: Injury Prevention for Sport and Physical Activity—funded by the BC Healthy Living Alliance (see page 4 of the newsletter for more information)

PROFESSIONAL DEVELOPMENT OPPORTUNITIES:

Potential session topics for 2016/2017 include:

- Keeping on top of the literature in your field
- Maximizing your presence and use of social media
- Knowledge translation

Let us know which of these sessions would interest you, or suggest other helpful sessions by contacting us.

Knowledge Translation Competition

In March 2016 the CIPTN hosted a Knowledge Translation Competition. Trainees were invited to submit infographics or YouTube videos about their research or a seminal paper in injury prevention for the chance to win up to \$1500.00.

Congratulations to the winner, Maciek Krolikowski!

To view the winning submission, visit

https://www.youtube.com/watch?v=9RdDW_87Xys&feature=youtu.be

Congratulations Grads!

The CIPTN would like to congratulate the following trainees on successfully defending their thesis:

Tracy Blake, PhD
Kerry MacDonald, PhD
Maciek Krolikowski, MSc
Paul Eliason, MSc
Carla van den Berg, MSc
Amy Couperthwaite, MSc

Have you recently defended? Let us know!

Information for New Members

Welcome! The Canadian Injury Prevention Trainee Network (CIPTN) founded and led by Dr. Sarah Richmond was developed in 2013 building on the working model of the Strategic Teams in Applied Injury Research Child & Youth Team (STAIR C&Y). To date, the CIPTN has been successful in acquiring funding from a number of groups including STAIR, CIHR, and CCCIP.

The CIPTN provides training opportunities such as CV preparation, grant writing, publishing prep courses; networking opportunities such as PI mentorship breakfasts; collaborative work and national and international opportunities through trainee conference support. The network has been very successful to date, and continues to take on new projects and trainees.

Please register as a member on the CIPTN website. We look forward to collaborating with you!

Current Opportunities

We are currently looking for trainees to participate in a paid opportunity to contribute to the **Active & Safe BC: Injury Prevention for Sport and Physical Activity** project funded by the BC healthy Living Alliance.

WHO: We need up to 20 trainees to conduct comprehensive literature reviews (Project 1) and a synthesis of this evidence (Project 2) by specific sport and recreational activities, related to evidence-informed practice in sport **injury prevention**.

WHAT: Through literature reviews (Project 1), we aim to identify evidence-informed practices, programs, policy recommendations and key educational materials and messages for the prevention of sport and recreational activities. These literature reviews will also include gathering evidence related to the implementation and evaluation of these initiatives.

In addition, trainees will take this information and synthesize it (Project 2) using a guided framework. This information will be used in an on-line training module/resource made available to the public. The resource will be used to guide decision making for a breadth of users in the implementation of sport and PA injury prevention programming.

WHEN: Project 1 will begin in **September 2016** and continue until **April, 2017**. Project 2 will begin in **May** and continue to **September, 2017**.

WHERE: A research coordinator (who will manage project logistics and the day-to-day project management issues) and the project leads (scientific guidance) will provide trainees with the guidance and assistance they need throughout both projects. This will occur virtually via teleconference meetings, Skype meetings, and through regular email correspondence.

WHY: This project will provide trainees in **injury prevention with the opportunity to work closely with sport and PA injury experts** from across Canada (BC, Toronto, Calgary) and knowledge users and stakeholders from SportMedBC, the BC Recreation and Parks Association, viaSport, and Parachute. Trainees will be able to add critical skills such as comprehensive literature searching, evidence synthesis and dissemination to their CV through the activities directed in this project. Importantly, trainees will be considered for lead authorship on work relating to peer-reviewed publications from the specific literature reviews they lead. Perhaps equally as important, trainees will be paid for this position.

Thank you for your interest, we look forward to hearing from you regarding this exciting opportunity!

We are constantly advertising opportunities on our website and facebook page. Join now and never miss a posting!
